Reputation	Excellent x many So-so x a few	Excellent x 6	Good but pricey. And Sorong Immig officer is problematic	?? X 1 Seems very responsive and thorough	Good x 1	Good x 10	Good x 2	Excellent x 2	No Idea, but nice explanatory website	This is a combination of my own feelings and interactions, plus recommendations from other people (the x 6, for example, means I personally know 6 people/boats who have used and said good things about the service).

Note that Indonesia President has recently ruled that PCR test costs 300,000 IDR (approx \$21 USD) and results must be available in 24 hours (don't know if this extends to arriving foreigners)

Note that Marina del Ray assumes you will stay at their marina for some time.

Every agent will require full payment before paperwork is submitted to Immigration, by wire transfer.

Visa Validity: The actual "must use by date" is printed ON the visa. It is supposed to be 90 days for a B211A business e-visa for a person outside Indonesia.

But Raymond quotes 60 days for some reason, and one Immigration agent in Sorong insisted it was 30 days.
